

The Auvergne-Rhône-Alpes Region provides Novasep a grant to finance its "Data Lake for the Industry 4.0" project

- The grant is given by the Auvergne-Rhône-Alpes Region to support Novasep in its digitization program
- The Novasep site in Chasse-sur-Rhône, France, requested this grant to support the financing of its "Data Lake for the Industry 4.0" project for the integration of new technologies to optimize production

Lyon, November 4th, 2021 - As part of the program "Être accompagné dans mon projet Industrie du Futur" co-financed by the Region and the French Government, the [Auvergne-Rhône-Alpes Region](#) has awarded a grant to Novasep to finance its project "**Data Lake for the Industry 4.0**".

The objective of this project is to integrate new technologies to improve the capture and the utilization of industrial data in order to optimize production.

The project started in October 2021 with a diagnostic phase that is still in progress. The project team is expected to implement a pilot solution in January 2022, allowing to start collecting and exploiting industrial data.

The main objectives of this project are as follows:

- Facilitate data access in real time and accelerate our statistical analysis process (visualization & interpretation)
- Improve our processes and practices (avoid quality problems, help with investigation, etc.) and facilitate decision-making
- Achieve gains in productivity through continuous process improvements
- Increase profitability

Through this project, the Novasep Group demonstrates its **strong ambition towards Industry 4.0 through new technologies to digitize its production processes and reinforce its competitiveness.**

About Novasep

Novasep is a global provider of cost effective and sustainable manufacturing solutions for life sciences molecules. Novasep's unique offering includes process development services, purification equipment and turnkey processes, contract manufacturing and complex active molecule services for pharmaceutical, biopharmaceutical, fine chemical, food and functional ingredients as well as fermentation and chemical commodities industries. <https://www.novasep.com>
